

**Azam Kadirhodjaev,**

Deputy Chairman of the Republic of Uzbekistan on Geology and Mineral Resources

Azam is a Deputy Chairman of the State Committee of Uzbekistan on Geology and Mineral Resources (Goscomgeology) and responsible for maintaining an active investment policy by accelerating the provision of mineral deposits for industrial development, and developing recommendations for their rational use, including the attraction of foreign investment. He has experience working in the Government sector as a Head of the International Cooperation and Investment Attraction Department at Goscomgeology.

Azam has successfully managed the State Service of the Republic of Uzbekistan in tracking dangerous geological processes. He has extensive experience in carrying out works on attracting foreign investments, conducting direct negotiations with foreign investors, and preparing proposals to the Cabinet of Ministers on the granting of the right to use subsoil blocks.

Azam has two educational backgrounds. Graduated from Tashkent State Technical University in the field of International economic relations and in Hydrogeology, engineering geology, and Geoecology.
